

CV+AWARDS

ADRIAN LANGENBACH

BIO:

Born 1985 in the black forest of Germany, Adrian Langenbach collected his first experiences in wildlife documentaries.

Finished film school at the Filmakademie Baden-Württemberg he is working as a cinematographer internationally in different formats like feature films, short fictions, commercials and animation projects.

Being experienced in high dynamic tools for car chases, he is also working in high concept projects with motion control robots.

Nevertheless his seek and creative expression is to discover a tight connection to the characters and to transport the emotions of the story in his pictures.

His tools are over all the control and capture of light and movement to support the dramaturgy of a film.

His work has been recognized at international festivals, including nominations at Camerimage and awards such as Best Short Film at the Saudi Film Festival and Best Cinematography at the Motor Film Awards.

He lives in Berlin, works worldwide, and finds creative inspiration in the Black Forest.
