

FLORIAN BISON

ABOUT:

I could tell you that I was only 7 years old when I got my first camera and that my parents are super artsy fartsy - or I could tell you the truth.

The truth is that I didn't really step into anything remotely creative until I was 25 - I lived in Malaysia at that time and was lucky to get a good deal on my first DSLR camera.

It took me another year and a trip to South America to realize that film making and photography suits me better than a suit. All this in mind I decided to chuck my plans for a business masters overboard and traded that grey office desk in for a camera.

These days I'm doing what I would've been doing a lot earlier if I got this camera when I was 7. I make films and snap photos.
